

Outreach November 2021 near Beira, Mozambique

...to Support IHOP Mission in Nhamissenguere...

Fixed wing and helicopter working hand in hand for the efficient transport of people and goods.

Scope of work:

Foundations for Farming (Farming God's way)

- Seminars for people from the village on how to farm in a biblical and sustainable way

Gospel work with IHOP Mission

- Evangelism including the Jesus-film in the local language (Senna)
- Kid's ministry

Support in establishing a mission base

- MA flew building materials and seedlings to the site.
- Team of specialists installed solar power (sourced in South Africa)
- Main building extended and made watertight.
- Solved various problems with power, water supply, etc.

Stats:

- 1 Helicopter 11 Flight Hours
- 2 Fixed wing aircraft 10 Flight Hours
- 9 tons Building material and seedlings transported
- 21 Volunteers getting involved
- ± 80 Villagers educated in farming with biblical principals
- 100's People hearing the Gospel

Hundreds of **SOULS** reached and touched thanks to generous **DONORS** enabling Mercy Air to fly!

Johan (Foundation Farming) explaining the basics of agriculture.
He beautifully explains the principals we find in the Bible that God has given us to apply.

How to prepare the soil

How to make compost

Aren't stories exciting for kids...?! Why not tell biblical stories...?

Role plays, a very important means of illustrating the need for the **Gospel of Jesus Christ.**

Jesus film in the evening— thanks to the solar power we installed the day before!

Mercy Air volunteer, Bruce, is a solar expert. He arranged everything, from sourcing the equipment to completely installing the solar system.

The sun, God's gift to make electrical power where there is no chance of getting access to the grid.

Team of volunteers installing the roof on the main house of the mission base.

Missionaries and Mercy Air volunteers working together towards the same goal.

There is always opportunities to support missionaries in their daily struggles. Sometimes as essential as water pump issues.

IHOP mission base in Nhamisenguere in development.

The helicopter - one of the great tools God has entrusted Mercy Air with to be used for His glory.

Mercy Air is grateful that we are part of God`s work in Southern Africa.

Many supporters, partner and volunteers help to make this possible.

Many thanks, and may God bless you all.
